Awesome organization and good ways to keep students' attention during 75-minute lecture.

Great 101 Class. Bloomfield is a GREAT professor, please let him do upper level CS classes!

This class should be taught entirely in front of computers. That is the only way to learn this stuff.

it was tough but was something i otherwise would not have seen

GREAT JOB! I LOVED CS 101!

lab should count for credit

I hate the textbook. Why do we have to be forced to buy it just so that we have a reference for tests?  
There should be more than 1 Java book pre-approved for use in open-book tests, like Head-First  
Java.
